Where to Start...

Most people freak out in the initial stages of a break up. Emotions run high and you feel like a complete mess. Here's a look at a typical Break Up Cycle:

The Break Up Emotion Cycle

This cycle can last for weeks or even months. When you're in this state of Emotional Cycle, it's very hard to know what to do or what to think. And the worst part is it's extremely difficult to pull yourself out of this emotional cycle.

Your mind is virtually like a mini cyclone of NEGATIVE thoughts and feelings.

The thing is we can become ADDICTED to these feelings. The more you feel bad, the more you want to **FOCUS** on feeling BAD. Makes no sense, but a part of our human nature is that we NEED to feel emotions, whether good or bad. It's what separates us from machines and other animals.

Ex Recovery System

The problem is you can't FUNCTION when you're in this state. When you can't think rationally, or feel NORMAL, how can you possibly attract your ex boyfriend back? That's when you start making crucial errors like:

- Calling them over and over.
- Professing your love.
- Crying and begging for forgiveness.
- Using guilt trips or anger to try to change their mind.
- Getting frustrated and doing all sorts of illogical and inappropriate things to get their attention.

Now what do you think your ex boyfriend is going to think when you start to freak out on him? The LAST thing he would want to do is come back to a needy, desperate and irrational woman who doesn't even know what went wrong in the relationship.

Don't feel bad if you have made these mistakes, it's quite common.

Getting Your Emotions In Order

If you're certain you're still going through these emotions on a regular basis (eg. Daily) I want you to first:

- Recognise they're there.
- Understand they won't completely go away unless you're over the break up.
- Understand that in order to get your ex boyfriend back *as quickly as possible*, you must CONTROL your emotions first.

Emotions can be controlled by DIVERTING your focus. When you FOCUS on these emotions, that's when you start to lose yourself in it. All you need to do is alter your focus, DO something else. Go somewhere. THINK about something else. Don't allow yourself to be locked into tunnel vision once you start to run one of the emotional patterns.

Recognise when it happens and then INTERPRET the pattern by doing something else!

Ex Recovery System

In The [Ex Recovery System](#) I let you in on 2 Powerful Tactics for coping and keeping down those *Emotional Feelings of Panic*: The **Complete Control Technique** and the **Instant Emotion Buster**. I use both myself and they're true lifesavers for times when you feel you can't "handle your heart break anymore".

But MOST importantly they're TOOLS you can use to **instantly feel good**.

The faster you do this the **faster you can get your ex boyfriend back!**

Once you download the [Ex Recovery System](#), you'll see how simple these actually are!

Turn Up Your Attraction Meter

The next step is to increase your ATTRACTION/HOT/Babe Meter... whatever you want to call it. You know, the chemistry between you that were present in the beginning of a relationship but have since died.

You want to increase your ex boyfriend's DESIRE for you, the easily and quickest way to do this is to:

Turn your focus away from your ex and onto YOURSELF.

This concept goes along the same lines of "reverse psychology". Since the break up, you've likely made yourself extremely available to your ex, in the hopes that he'll think you care, love him and want him back.

Unfortunately that's not how attraction works.

You must agree with the break up & remove availability to inject DESIRE.

The only time you want something is when you don't have it right? Therefore if you want your ex boyfriend to want you, you must make sure he **doesn't have you**.

BUT, remember there is a RIGHT way to do this, and a WRONG way too. I mean, you certainly wouldn't want to be SO removed from your Ex, that he runs away thinking that you're not interested anymore, do you?

In [The Ex Recovery System](#), I reveal EXACTLY what you need to do to inject the RIGHT kind of desire into your Ex, without making him think you've lost all interest!

WARNING!

Being Friends With An Ex Boyfriend

One area people make a mistake of is by “agreeing to be friends” with an ex. Please let me stress, you do NOT want to be labelled as FRIENDS.

This means even IF you have agreed to be friends, instead of telling them “you’ve changed your mind” – which is inconsistent with your earlier action – you’re just **not** going to put any label on your relationship.

Don’t confirm or deny being friends.

But what if you are already friends with your ex? That’s ok, just keep doing what you’re doing, except with a few **secret attraction boosters**... these I reveal within [The Ex Recovery System](#), and they work whether or not you see or talk to your ex every day.

The Key to Putting It All Together

Remember, the First IMPORTANT steps to get your ex boyfriend back as quickly as possible are to...

1. Regain CONTROL of your emotions.
2. Turn focus AWAY from your ex and onto YOURSELF.
3. AGREE with the break up and put some distance between you and your ex (removing availability).

This is only the first steps to getting your ex boyfriend back HOWEVER, you MUST have an overall PLAN, so you know exactly what to do to NEXT.

Like I said, once you’re onto the stage of removing availability and putting focus on yourself, you might still SCREW THINGS up if you don’t know what to do next!

Ex Recovery System

The Ex Recovery System will reveal:

- The [\\$500 letter template](#) that has the potential to get your ex boyfriend calling you and chasing after you.

- The secret to [male psychology](#) that most women will never know about – this will give you the edge to get him back and make him think it was all HIS idea.
- **TWO potent strategies for re-attraction** – [Direct and Indirect method](#). One focuses on in-person (direct) strategies while the other focuses on long-distance and non-direct strategies. This gives you the most versatile way to get him back if your situation is less than “ideal”.
- Different types of [No Contact](#) you should be aware of and when to use which!
